

TECHNICAL SPECIFICATIONS

1. SCOPE OF WORK

The scope of work under this contract shall include transportation and disposal of dewatered sludge (solids) at a permitted sludge (solids) disposal facility from the solids dewatering facility of Lower Bucks County Joint Municipal Authority (Authority) Water Treatment Plant located at 60 Main Street, Tullytown, Bucks County, Pennsylvania. The Contractor shall also provide the required dumpster(s) or container(s) for the collection of the dewatered solid cake from the sludge dewatering filter press(s) (filter press). The Contractor shall be responsible for placing the dumpster(s) below the discharge openings of the filter press located in the Filter Press Building and removal when full or when required as requested by the Owner. The Contractor is expected to visit the job site prior to his bid to verify the exact conditions and dimensions at the facility. The Contractor shall also be able to provide the service required under this contract during the holidays and weekends, if required. At least one (1) spare empty dumpster shall always be kept at LBCJMA's Water Treatment Plant.

2. LOCATION OF SOLIDS DEWATERING FACILITY

The solids dewatering facility is located at the Authority's Water Treatment Plant located at 60 Main Street, Tullytown, Bucks County, Pennsylvania (Zip Code 19007).
